

## **Assignment 2**

Introducing Relational Databases.

1) Which field of the Customers table is the primary key?

Ans: The primary key is the CNUM field (Customer Number), as it uniquely identifies each customer in the table.

2) What is the 4th column of the Customers table?

Ans: The 4th column is RATING.

3) What is another word for row? For column?

Ans: Another word for a row is record or tuple.

Another word for a column is field or attribute.

4) Why isn't it possible to see the first five rows of a table?

Ans: the data is visible here, there's no issue in this case. However, if you couldn't see the first five rows, it might be due to:

1. Permissions: Lack of access to the table.
2. Query issue: Incorrect query to fetch the rows.
3. No data: The table could be empty.
4. View settings: The display might be limited.
